PIMPAMA SUGAR COMPANY
(LIMITED.)
MORETON BAY, QUEENSLAND.
Incorporated under the Act of Parliament, 27 Victoria, No. 4.

CAPITAL: £6000, in 600 shares of £10 each, with power to increase capital to £12,000.
LIABILITY of Shareholders limited to £10 per share.
DIRECTORS: Chairman, the Hon. Colonel O'Connell, President of Legislative Council of Queensland; Frederick Bauer, Esq., of Victoria (late of Trinidad, Jamaica, and Barbadoes, West Indies); Robert Cribb, Esq., M.L.A.; J. C. Heussler, Esq., merchant, Brisbane; Thomas Ham, Esq., Brisbane.
BANKERS: Bank of New South Wales, Brisbane.
SOLICITOR: James F. Garrick, Esq., Brisbane.
RESIDENT PLANTER (pro tem.): Mr. John Buhôt, sugar planter (late of Barbadoes).
AGENTS FOR THE COMPANY: Messrs. C. Heussler and Co., Brisbane.

THE CULTIVATION AND MANUFACTURE OF SUGAR is universally acknowledged to be, under favourable circumstances, one of the most remunerative pursuits throughout the world. Queensland contains within itself, in a peculiar degree, the elements essential to success in the prosecution of this industry. Its climate and soil are pronounced by practical sugar planters to be inferior to those of no other country for sugar-growing purposes, and it is worthy of consideration that sugar for home consumption is protected by an import duty, and forms a large item in the commerce of the colonies of Australia and New Zealand. The colony also now possesses an advantage in the experience derivable from many practical sugar planters and manufacturers resident amongst us in the colony, which will be made available so as to obviate in a great measure the risks incidental to the early cultivation of sugar-cane in a new country. It has, therefore, been deemed desirable to establish a public Company, with Head Office and Directors in Brisbane, for the Cultivation and Manufacture of Tropical Products, such of Sugar, Arrowroot, Coffee, Tobacco, &c., &c.

THE PIMPAMA SUGAR COMPANY is now formed for the purpose of working, as a sugar plantation, a block of first-class land, consisting of one thousand acres, on the Pimpama River, south of the Logan River, Moreton Bay. The property has been advantageously purchased by the Directors; and the deeds are now in their possession.

Valuable improvements have been effected on the estate; twenty acres of the land are already under sugar cane, and in good condition; and land has been planted with Sea Island Cotton, and with other crops. The purchase includes growing crops, buildings, fencing, &c., &c.; and the usual delays attending the taking up and clearing of land in unoccupied districts will thus be avoided. A large area has been partially cleared, and additional land is being brought into sugar cultivation, with the view of increasing the company's crop this year to sixty acres.

Full information as to the character of the soil and capabilities of the property can be obtained by a perusal of Mr. Buhôt's report to the directors, received previous to the purchase of the property.

The directors propose to work this estate on the most careful and economical system, consistent with good cultivation, and to erect, in the first instance, simple but effective machinery for manufacturing purposes, capable of extension for future operations when a large area is cultivated. The directors will maintain a strict personal supervision of the operations carried on, and of the expenditure; previous to every monthly meeting of the Board one or more of the directors will personally inspect the estate and receive the manager's report; the greatest economy will be observed, in order to secure early dividends at the smallest possible outlay of capital.

In the management of this company there will be no fees to directors until such time as dividends shall be declared; and it is proposed to pay out of the profits ten per cent. interest half-yearly to the shareholders on capital invested, independent of the annual dividends.

Shares, under the Limited Liability Act are now offered to the public, payments being fixed at ONE-FOURTH cash on allotment of shares, balance (without interest) in 6, 12, and 18 months.

For shares and further particulars apply to C. HEUSSLER and CO., Merchants, Brisbane.

CAUTION.—Chlorodyne.—In Chancery.—It was clearly proved before Vice-Chancellor Sir W. P. Wood, by affidavits from eminent hospital physicians of London, that Dr. J. Collis Browne was the discoverer of chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See the TIMES, January 12th, 1864. The public, therefore, are cautioned against using any other than Dr. J. COLLIS BROWNE'S CHLORODYNE, which is extensively used in hospitals at home and abroad, and is affirmed by medical testimonials accompanying each bottle to be the most efficacious medicine ever discovered for fevers, dysentery, diarrhoea, consumption, coughs, colds, asthma, bronchitis, spasms, rheumatisms, &c. No home should be without it. It relieves pains, soothes the system, inducing refreshing and soothing sleep, without producing or leaving any unpleasant effects like opium, and may be taken at any time in a few drop doses.

None genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the wrapper.

⁂ Beware of counterfeits sold under the same name.

Wholesale agents for Sydney, Messrs. M. A. WORMS and CO., 21, Wynyard-lane.

Sole manufacturers, J. T. DAVENPORT, 33, Great Russell-street, London.

CAUTION against COUNTERFEITS.—None are genuine unless the signature of R. and L. PERRY and CO. is affixed to each wrapper, and blown on the bottle; and each bottle is protected by a patent capsule, bearing the proprietors' name and address in full. The greatest medical discovery of the age.

PERRY'S CORDIAL BALM OF SYRIACUM.

Sold at Messrs. R. and L. PERRY and CO.'S Wholesale Depot, No. 19, Berners-street, Oxford-street, London, and at their Depot, 259, Pitt-street (near the Victoria Theatre), Sydney.

Caution.—The high repute and extensive sale of Messrs. Perry's medicines having induced many unprincipled individuals to foist upon the pubic illicit and spurious compositions of their own preparation, Messrs. Perry beg to inform persons purchasing their medicines that none are genuine unless the signature of R. and L. Perry and Co. is affixed on the outside of each wrapper of the Cordial Balm of Syriacum and Detersive Essence, and their name and address, and also that of the medicine is blown on the bottle, to imitate which is felony; and in addition, all Messrs. Perry's medicines sold in Australia, India, China, and all other parts of the world, will be protected by a patent capsule annexed to each bottle, bearing their name and address in full.

R. and L. PERRY and CO., Depot, 259, Pitt-street, Sydney, near the Victoria Theatre.

No connection with any other house.

CAUTION.—COCKLE'S ANTIBILIOUS PILLS.—Fraudulent imitations of these celebrated pills are in circulation, having the stamp, bills, and labels all counterfeited. Some of these counterfeits have the stamp printed with a full stop after the word "OFFICE," and are wrapped with one bill only, the boxes lined purple or red, and the pills themselves irregular in form, with indentations on their surface. The GENUINE have no stop after the word "office" on the Government stamp; they are wrapped with two bills, the boxes are white inside, and the pills are perfectly globular in form, and present no indentations whatever. Combined with the acidulated lemon syrup, it forms an agreeable effervescing draught, in which its aperient qualities are much increased. During hot seasons, and, above all, in hot climates, the regular use of this simple and elegant remedy has been found highly beneficial.

Strumous disease or scrofula is rapidly subdued by its influence. In all cases of debility, emaciation, indigestion, loss of appetite, lowness of spirits, and lassitude, it is speedily efficacious. By the continuance of its administration for a few weeks, the most deteriorated constitution may be wholly restored to health.

Prepared by John T. Davenport, 33, Great Russell-street, Bloomsbury, W.C., London, from a prescription of Dr. J. Collis Browne's; and sold wholesale by his agents in Sydney, Messrs. WORMS and CO., and retail by all chemists.

Ladies' Bath open daily from 8 a.m. to 8 p.m.
Working Men's Bath open daily from 5 p.m. to 8 p.m.

"But the bath is of still greater importance to the healthy than to the sick; for to be kept well is better than to be cured, and a harmless, luxurious, invigorating, and life-prolonging recreation, is better than all medicine. The bath is to the individual man, comprising his liver, kidneys, and skin, what the sun is to the world and its inhabitants."—Dr. ERASMUS WILSON.

"I am more and more every day persuaded by my experience of the great value of the Turkish Bath. I have been boiled, or rather roasted again into youth."—Sir JOHN FYFE, M.D., introducer of the bath into the Newcastle Infirmary.

"In Cyprus, where there is a mixed Mahometan and Christian population, the Mahometans who use the Turkish Bath are almost free from consumption, while the Christians, who do not use it, fall frequent victims to that disease."—Dr. BARTER.

"Gout and rheumatism are hardly known among the bathing population of Turkey."—URQUHART.

"The Turkish Bath is looked upon so much in the light of a panacea, that the lower orders never dream of consulting a physician when taken ill."—Dr. MILLINGEN, physician to the Sultan.

BOYVEAU LAFFECTEUR'S ROB, authorised and adopted by the medical faculty of France. This syrup, prepared and guaranteed genuine by the signature of "Dr. Girandeau de St. Gervais," is superior to the essence and to the syrups of sarsaparilla, of cuirines, iodine of potassium, and other mercurial preparations. Being of easy digestion and pleasant to the taste and smell, the Rob is recommended by the medical practitioners of all countries for the cure of tetters, abscesses, cancers, ulcers, degenerated gales, scrofula, scurvy, and fluor albus.

The Rob de Boyveau Laffecteur is useful to cure radically, and in a short time, acrimonious fluor albus, and old and new contagious symptoms. The Rob particularly cures syphilitic diseases, and is especially adapted to cases where mercury has been administered, as it completely eradicates from the system the baneful influence which the use of all such preparations so frequently produces.

Prize Medal New Improved
SEWING MACHINES.

The distinguishing feature in this machine is the making of the

TIGHT LOCK STITCH by the ROTATING HOOK, an improvement on the shuttle, whereby all heavy and noisy action is avoided, which makes it noted above all other machines for simplicity and general effectiveness; in proof of which, the machine gained a First-class Prize Medal at the London Exhibition of 1862; also, the Paris Gold Medal in 1861; and the numerous testimonials received from persons in all parts of the colonies amply testify to its excellence. Its complete superiority is fully shown in the following

It fells or hems any width, turning its own hem as it stitches.

Gathers any kind of material with any quantity of fullness.

Gathers and sews on a band at the same time without basting.

Embroiders in beautiful designs, with cord, braid, or silk.

Sews in cord without basting.

Hems, enclosing a cord at the same time, without basting.

Binds any material without basting.

Marks any width of tucks, and stitches them without basting.

Trims skirts with braid, velvet, or ribbon, without basting.

Quilts any material in any design, with silk or cotton.

DESCRIPTIVE PAMPHLETS, with testimonials, FREE BY POST, on application.

INSTRUCTIONS GRATIS TO EVERY PURCHASER.

The public are respectfully invited to call and see the MACHINE IN OPERATION at the Show Rooms, No. 1, Wynyard-street, next to Bank of New South Wales.

VENNARD and STEVENS, sole agents.

WILLCOX AND GIBBS' FAMILY SEWING MACHINE.—In 1864 it competed and received nine out of ten prizes given for the best Sewing Machine in the United States. It forms a flat, even, and elastic seam, which is warranted not to rip in wear if properly sewed, when every third stitch is cut. This machine can be run but one way; two thousand stitches, or two yards of work, can be done in one minute without dropping a stitch. The machine is so simple and accurate in its construction that it supersedes the use of the noisy shuttle, and with one thread produces all the practical results of the two-thread machines, and more, for it fells without basting, and hems the finest muslin without puckering. It will sew perfectly from one to thirty-two thicknesses of calico without alteration of tension. The highest colonial testimonials can be given of their practical working. S. HEBBLEWHITE, 432, George-street, and 292, Pitt-street.

M'CARROLL, CUMBERLAND-STREET.

This week the price of stock has run so high
The would-be leaders are afraid to buy;
They feel a panic, and are struck with fear,
Because the prices have become so dear.
Not so M'Carroll. Whether dear or cheap,
His scale of prices he will strictly keep.
No rise in winter to distress the poor,
M'Carroll's name will hold them all secure.
He always was and yet will be their friend,
Tho' by the butchers he is so condemned.
He scorns to join or truckle with a league—
Extorting prices by combined intrigue.
'Tis PHIL M'CARROLL—not M'Carroll and Co.—
(He don't believe in doing business so);
That was his style the day he first began,
And made him what he is—the leading man.
Free Trade for ever! 'Tis that which shews the man;
Come all the trade—compete then if you can.
Try at his prices if you can to sell—
He finds them pay him first-rate and well.
The rise that's come has come just as he thought,
It can't reach him, for all his stock is bought.
This is the reason why no other man
Can serve the public as M'Carroll can.

SYDNEY GALLERY OF PHOTOGRAPHY.—Messrs. FREEMAN, BROTHERS, beg to announce that, influenced by repeated solicitations from their numerous patrons and friends, they have decided on reducing the price of their Carte de Visite Portraits. In arriving at this decision they have been cognisant of the fact, that this favourite and pleasing mode of perpetuating the memory of relatives and friends has imposed a somewhat heavy tax on those who have a large circle of acquaintance. It is, therefore, with a desire to lighten this that Messrs. Freeman, having a large and effective staff of assistants, and all the accessaries required for producing the highest style of photographic portraiture, have resolved to try the experiment of issuing their Cartes de Visite at a reduced scale of prices. In fixing on this they have adopted the lowest remunerative price at which the best photographs can be rendered in this country, where labour and other expenses are so much higher than in England and on the Continent. They, therefore, trust their efforts will be appreciated, as they are determined that none but first-class portraits shall be issued from their establishment.

The scale of prices will be for the future, twenty-five shillings for a dozen cards, and two shillings each for duplicate impressions.

Messrs. Freeman wish to call attention to a new and elegant style they have now introduced of

CAMEO PORTRAITS,

to which they invite attention; they have also an apparatus for the new Diamond Cameo Portraits, now so universally used in England. By this process four different views of the same face are produced on one card.

Cartes de Visites beautifully tinted, and brooches and lockets coloured in the most finished style.

The Sydney Morning Herald.

SATURDAY, JUNE 24, 1865.

WE have the English news, but we have no tidings of the Bombay which was to have brought it. We see no sufficient reason, however, to entertain fears for her safety. It is most probable that on her upward passage to Galle her machinery became deranged, and that she has borne up for Mauritius, and that next month we shall hear of her arrival there. It will be remembered that the same vessel broke down once before and made for the Mauritius.

The Company's agents at Galle seem to have acted with commendable promptitude in forwarding the mails by another steamer. If it had not been that the Indian telegraph line between Galle and Bombay was out of order, we should have had the mails delivered earlier by the Emeu, which would have been sent down from Bombay for the purpose. As it was, they were forwarded by the first vessel that was available for the purpose, and we have a steamer here now ready to take the next month's mail. In the possession of their large fleet, the P. and O. Company have great advantages over a company possessing only just vessels enough to carry on the contract, for they can furnish an additional boat with comparatively little delay.

It is highly desirable that we should have on the line larger and more powerful boats than are at present in use, both to accommodate the increasing passenger traffic and to carry the mails with punctuality. But even while smarting under the vexation of the loss of the post this month, let us be just to the general excellence of the company's administration, and let us call to mind the fact that the run from Sydney to Galle and back at a continuous high rate of speed is a more severe strain on a steamship than is required on any other mail route in the world. Who does not remember the irregularity of the European and Australian Company's management, and the still unsatisfactory service as conducted for a time by the Royal Mail Company, under Mr. WETTON's superintendence? The performances of the present contract have been very different from what we then had to put up with. Leaving out of sight the recent accident to the Madras this year, let us look at the service of 1864, which was on the whole inferior in punctuality to that of 1863. The Madras, in 1864, which should have arrived on 14th January, did not reach until the 25th, but this arose from an accident to the Mediterranean steamer, by which the departure from Point de Galle to Sydney was necessarily delayed. Except this, the longest overtime during the past year was three days, the Madras arriving on the 17th, instead of the 14th. The Bombay during the year was very fortunate. In March, for example, she arrived a day before her time. In June she was one day after. In September, however, she was two days, and in December one day, before her time; so that her speed has been sufficient to fulfil the contract generally with more than exactness. There is in the number of days via Marseilles a variation on the whole line of from fifty to fifty-six days, but fifty-three may be taken as the average. The longest time via Southampton is sixty-two days. Looking, therefore, at the experience of the year 1864, we have no reason to complain of the irregularity of the mail as impeaching the general competence or attention of the company. Under the present contract there is no penalty for non-performance, but we do not perceive in the account we have given any reason to suppose we have lost by this omission.

Every year the disposition to travel is increased by the greater facilities offered, and people run home and return before they are missed just outside the limits of their own domestic circle. We see a familiar name in the list of departures, and in a time which we hardly mark we raise our eyes and the same face is seen in the streets again, a little more beardy it may be, but just as if it had not looked meanwhile upon the circumference of the globe. Persons who never could have dreamed of visiting Old England had it required as heretofore the best part of a year upon the water, are now able, during a short leave of absence, or by some easy arrangement, to avail themselves of the refreshment, and often the profit of this rapid migration. What therefore seemed in excess of the wants of the country only creates the demand which it supplies.

The doubts expressed, when steam communication was first established, in reference to the demand for passage and the appreciation of more rapid intelligence, has been finally settled by the result. Instead of declining the contract a willingness has been expressed to extend it on terms certainly not onerous if they were in other respects desirable. But to suppose that a service of this kind will continue for years together without some interruption is to expect what has never been realised by any lengthened steam line, nor can be so long as boats are liable to internal accident or exposed to the dangers of the sea. We have no doubt whatever of the good faith of the contractors, or that the mortification they feel when delay occurs will be fully shared by their servants, whose pride it is to do more than their contract demands—who naturally like to lengthen the interval of their stay in port, and to overcome the distance as rapidly as possible. It is natural, however, for those who suffer severely from the interruption of the mail to complain of the delay, and to find some ground of suspicion against the vessel, its management, or its owners. The whole system of commercial offices must be deranged by the delay of a month's intelligence.

There are two great points on which prompt intelligence from the Old World is specially important. If the old sources of cotton supply are reopened, and that stock which has long been retained is hurried into Europe to seize the market before its definite decline, we may probably see a monetary panic extending from cotton to other commodities, and certainly in some degree embracing our staple. Those most acquainted with the course of the cotton trade are quite in conflict—some asserting that large stocks are behind, and that facilities for transfer from the market of consumption are so perfect that when an outlet is made from the places of production the influx to the cotton districts will be enormous. But on the other hand it is maintained that the stock is too low to produce any instantaneous result, and that the management of what is in hand by capitalists will be so skilful as to create no tremendous step in the decline of price.

The other important point which awaits solution, and involves our fate, is our relations with America. We have had a strong impression that so long as LINCOLN and Lord PALMERSTON maintained power in their respective countries, there would be no war. But who can tell what changes are now impending? On a single life is suspended the organisation of political parties in Great Britain. On the life of one man the direction of politics in America equally depended; and now that life has vanished. It is in such circumstances that every colonist who knows how helpless we are will always look with deep anxiety for British news, and recognise in the delay of intelligence how possible it is that communication with England may not be for us so rapid as an arrival from America. We may learn some day or other from the gunshot of an enemy that the countries which we have supposed to be at peace are involved in war. On this account it seems hardly desirable that we should depend upon one line of communication. In view of such contingencies, and the possibility of complications which may involve the nations of the world, and us with them, we see the importance of a second line of intercourse with Great Britain—that all may not be dependent upon a single helm. Whenever the strength of the colonies shall warrant a more frequent and therefore expensive intercourse, we shall certainly increase our relative safety—be less exposed to fluctuations of market and of price, and be prepared for whatever event may make it requisite that we should stand upon our defence.

We do not imagine that any warnings of this kind will produce the slightest practical effect until the danger is once felt, and the lesson taught by actual loss and suffering. That pertinacity of indifference, that obstinacy of indolence which has marked our conduct with respect to our defences and our fortifications, will still continue. We shall do nothing effective—nothing that could afford any real obstacle to aggression—until after we have paid in ransom five times the cost of defences, and five times the sacrifice of life that would be demanded for a manly and gallant resistance. It is, however, the duty of the Press to point out, at all events, the possibilities of the future as they shape themselves into the probable, and to leave the responsibility of resolute negligence where the power of action has been confided by the law.

THE American war is virtually ended. The obstinate defence of Richmond has precipitated its termination. Had LEE retired from that city months ago, he might have taken his army safely away, but he waited till he was surrounded. The very strength of the place has proved a trap. In the interest of humanity it is well that it was so. A prolonged defence in the interior would only have wasted many more lives, and much more property, and still further embittered the relations of the two sections of the country. Victory for the South was clearly hopeless, since its exhaustion had been so clearly demonstrated by SHERMAN's march. There was a time when President DAVIS boasted that the war could be continued in Virginia for ten years after Richmond had fallen. But that was before the South was exhausted, or its exhaustion had been even anticipated. The country may be well adapted for defence, but what is the use of that without an army or provisions for it?

General GRANT seems to have added to his laurels as a victor, by generosity in the hour of final triumph, and to have done all that was possible to make LEE's surrender as little galling as possible. There is a proverb which advises a victorious general to make a bridge of gold for a flying enemy. But in this case it was of the utmost importance not to allow escape. There was no alternative, therefore, for LEE but a last desperate and useless defence or a surrender. GRANT showed no bloodthirsty desire to make the former course the only one compatible with military honour.

With the surrender of LEE, the South loses its last chance of making any longer an effective stand. BEAUREGARD, JOHNSTON, and HOOD are the three chief generals left, but neither of them, in the best of times, inspired the confidence that LEE did: and, at the present crisis, they certainly could do nothing to rally the dispirited army. They have no alternative but escape or surrender. LEE's surrender will justify to them the second course.

The news of Mr. LINCOLN's assassination will be heard everywhere with execration. The British Parliament only did justice to its representative character in expressing what must be the feelings of every Englishman, to whatever party he may belong. The QUEEN, a widow herself, sent with touching gracefulness a letter of condolence to the widow of the ruler of the great Anglo-Saxon Empire of the West. That hot-headed frenzied conspirators from the South, maddened by defeat, should think they did their country service by assassinating the PRESIDENT of the North is intelligible enough, but no one, capable of reasoning calmly, could for a moment justify the act. The assassination of tyrants by an oppressed people has been justified, but Mr. LINCOLN was not a tyrant. It was not he that made war. He was but the expression of the sentiment of the North. It has been and will long continue to be discussed whether on Republican grounds the war was ever justifiable, but Mr. LINCOLN himself was never at liberty to discuss or to determine that point. He was impelled by popular opinion to preserve the Union. But to say that in carrying out the public behest he has acted with cruelty or tyranny is to falsify facts. No great ruler possessing such uncontrolled power ever acted in such a crisis with more regard to humane considerations. When he took office he was surrounded by spies and conspirators, and both he and his wife were overwhelmed with personal insults. Had he been a bad tempered man he would have been provoked into bitter retaliation. But it was only with the greatest difficulty that the war party could wring from him the severe measures which the early Federal defeats and the want of military success seemed to justify. A polished man, in the courtly sense of the term, he certainly was not. An educated man, in the scholastic sense of the term, he was not; but he had received in large measure and profited by the rough though effective education of circumstances; and his strong common sense and his sterling honesty steadied him in the dangers and difficulties of an unexampled crisis when cleverer men, with less innate strength of character, might have made an ignominious failure. That in the course of his administration he made many mistakes is only to say that in the midst of special perplexities he was not superhuman; but the errors, such as they were, were those of the head and not of the heart. Slow, timid, hesitating, he sometimes was, but cruel or tyrannical he was not. Not one man in a million, lifted from his position in life to the height of his dignity, would have shown less disposition towards arbitrary power. The liberties of the people were safe in his hands. He had no ambition for the purple, and would never have turned the arms of the Republic against itself.

How great the loss of LINCOLN is at this juncture is shown by the fact that for four years the Americans are doomed to the unspeakable humiliation of submitting to the acknowledgment of a boozy blackguard like JOHNSON as their chief magistrate. In an evil hour the rowdy element of the western republicanism chose JOHNSON as its exponent, and bitter will be the punishment and degradation for such an abuse of the electoral power. Nothing has ever created for the United States so great a danger of anarchy. JOHNSON is utterly incompetent, both intellectually and morally, for the position in which he is placed, and the only hope is that under a sense of his responsibility he will have the discretion to accept good advice.

That there is plenty of bad advice to be tendered is evident from BUTLER's ferocious speech. But though this speech may have obtained cheers from the mob, we decline to believe that it represents the deliberate sentiment of the Northern people. This is the time for clemency, not for vengeance. The reconstitution of the Union, so dear to Northern pride, will be most readily brought about by a generous oblivion. A universal amnesty will be sound policy, and will give the best chance for healing the wounds the war has made.

There will be difficulties enough in the way of reunion without aggravating them by vindictive harshness. Though the army is conquered, the temper of the people will require years to be soothed. The bitterness of defeat is not easily swallowed by a proud and high-spirited race.

But though there will be many difficulties in the way of reunion, that result is now certain. The North has fought for that sole purpose and is now the conqueror, and will not in the hour of victory forego the object for which so much has been sacrificed. Now that submission is inevitable, it will seem to the South easier than it did while independence was possible. The Americans, too, have been accustomed by the working of their political institutions to submit to the rule of the majority. Obstinate minorities do not continue to wage a useless warfare. They break up and form fresh party organisations. The South will accept reunion, and political parties, as defined by the war, will undergo a great transformation.

A MEETING of American citizens residing in this city was held yesterday afternoon, at the American Consulate, Pitt-street. Mr. B. M. Mortimer occupied the chair, and stated the object of the meeting. It was resolved that the forthcoming anniversary of American Independence be celebrated by a dinner, and a committee of four was appointed to make the necessary arrangements.

MR. E. J. H. KNAPP.—The select committee of the Legislative Assembly, for whose investigation and report was referred, on the 6th instant, the petition of Mr. E. J. H. Knapp, have agreed to the following progress report:—Your committee have examined the petitioner; but as the session is so nearly at a close, they do not consider it desirable to prosecute the inquiry farther, and recommend that it be taken up next session.—JAMES HART, chairman.

CHAMPION SCULLING RACE.—A race between the champion sculler (R. Green) and Mr. Hickey, of Newcastle, in licensed watermen's boat, which has been on the tapis for several weeks past, will come off this afternoon, over the usual course on the Parramatta River. Green gives Hickey £100 to £70. The former has engaged the Agnes Irving to convey his friends to witness the contest, and Hickey has secured the Hunter—both excellent boats—for the same purpose.

ST. LEONARDS PRESBYTERIAN SCHOOL.—The St. Peter's Presbyterian Denominational School, at St. Leonards, was inspected yesterday by the Local Board, and an examination of the pupils took place, in the presence of a number of their friends and relatives, conducted by the Rev. C. Atchison. Prizes were awarded to those who were most proficient in the fifth, third, and fourth classes of the school; minor prizes being also given to the junior classes. The appearance of the children was highly creditable to the teachers, who were complimented by the local Board and the visitors. The numbers on the roll were stated to be 118.—83 boys, and 35 girls. The plain and fancy needlework, done by the girls, was especially commended.

CORONER'S INQUIRY.—Yesterday the City Coroner held an inquiry at his office concerning the death of Henry James Wright, a child aged seventeen months, who died on Tuesday morning. The father of the child is a labourer, and he lived in Argyle-street. Deceased was taken unwell on Sunday morning, and, as he continued to suffer from cold, was on Tuesday morning taken to Dr. Milford's, where he died. The doctor gave him some brandy and water; which, however, deceased was unable to swallow. Dr. Milford deposed that he did not see anything suspicious connected with deceased's death, which, he believed, was the result of natural causes. The Coroner found accordingly.

FOUND DROWNED.—The body of a man was discovered floating in the water off the Sand Spit, Middle Harbour, yesterday morning. The corpse was first seen by a labourer named George Alderton, who lives in the neighbourhood. The constable stationed at the North Shore was informed, and soon afterwards the body was removed in the water police boat to the dead-house at the Circular Quay. The body, which appears to have been in the water a considerable time, is very much decomposed; the features are obliterated, and in some parts only the skeleton remains. The remains have not been identified, but it is supposed that they are those of a seaman. The following description has been given by the police:—Deceased was a man of about five feet seven inches high; of stout build, and having black hair mixed with grey; he seems to have been between thirty-five and forty years of age; the only articles of clothing found were a pair of old dark coloured cord trousers and a belt which were hanging to the legs. An inquest on view of the body is to be held before the City Coroner to-day.

AUSTRALIAN FRESH MEAT IN LONDON.—An enterprising mercantile firm in London, Messrs. M'Call and Sloper, have entered upon a speculation for supplying the market there with cheap fresh meat, from the Australian colonies, and with this view they have patented an invention (which is also registered in this colony), for preserving meat by some chemical process, without the aid of salt. An agent of the firm alluded to has recently arrived in this city with a view of opening the business indicated. He purposes preserving and sending home some meat from this colony, to prove to those who may be sceptical on the point that it can be done; and should the experiment prove successful—as those who have it in hand, have the utmost confidence that it will—he will open an establishment for preserving fresh meat in large quantities for shipment to England. The gentleman alluded to brought with him a few tins of fresh beef preserved in London in October last, and this, on being opened a few days since, was found to be perfectly good. With the exception that there was no gloss upon it, the meat had the appearance of beef that had been about two days killed. We are assured by a gentleman who had a portion of this meat cooked and served at table, that its flavour was but slightly affected by the chemical process it had undergone.

OUR MUSICAL SOCIETIES.—It may be some satisfaction to those who contribute towards the advancement of the science of music in this city to know that their exertions—a large amount of which is perfectly gratuitous—are not unnoticed in the mother country. Amongst other favourable acknowledgments we take the following from the *London Musical Times* for March:—"SYDNEY.—The production of Handel's 'Acis and Galatea' by the Sydney Philharmonic Society, took place on the 29th of November, and met with the most triumphant success. The band was considerably augmented for the occasion; and the chorus showed unmistakable signs of the most careful training. The singing of Madame Flora Harris was much admired, and Mrs. Cordner gave the solo, 'Heart the seat of soft delight,' with true Handelian expression. We must also mention the excellent rendering of 'Hush ye pretty warbling choir,' by a young lady amateur. The male solo singers were all amateurs; although Mr. J. Waller's delivery of 'O ruddier than the cherry,' might entitle him, were he so inclined, to rank at once with professional vocalists. Every praise is due to Mr. W. J. Cordner for the admirable manner in which he has produced this work; and we hope that the success of this will induce him to attempt many other of the great masterpieces of sacred writing. Herr Herrman, a violinist and pianist of much promise, gave a concert on the 7th of December; and musical entertainments have been lately given by the Tonic Sol-Fa Association, and by the pupils of the Sydney Grammar School, in aid of the Randwick Asylum for Destitute Children. A complimentary concert has also been given to Signor Cutolo, who is said to be about to quit the colony."

LECTURE TO YOUNG MEN.—Last night, the Rev. W. Taylor delivered a lecture to young men in the Wesleyan Church, Bourke-street. There was a very numerous attendance of young men and other persons present. The chair was occupied by Mr. J. Caldwell, M.L.A. The lecture was on the development of character or the right use of the powers of young men, and, as Mr. Taylor remarked, was suggestive rather than exhaustive of the subject. The lecturer, in speaking of the development of the corporeal powers, treated of food, drink, pure air, exercise, sleep, and recreation. In talking of the intellectual nature, Mr. Taylor referred to sensation, perception, conception, reason, judgment, memory, imagination, conscience, the will; and he strongly urged the culture of all the faculties of the mind. With regard to man's moral constitution, the rev. gentleman spoke of different relations of life, the duties arising out of them, and the necessity of conforming to the designs of the Creator, who established all legitimate relationships of time, property, occupation, business, marriage, and of home. The lecture was replete with useful information and excellent advice; the illustrations were exceedingly apt and often humorous. Mr. Taylor spoke for about two hours and a-half, but the audience listened with unabated interest and pleasure throughout. A vote of thanks having been given to the lecturer, the gathering separated at half-past ten o'clock.

THE WILLANDRA CUTTING.—When our correspondents write to condemn so important a work as the Willandra cutting, they should, if they want the public to side with them, explain how the vast territory remote from the frontage is to be reclaimed, if drawing water from the main streams is to be prohibited. For years every visitor to these dry plains has called out for extensive systems of irrigations and canals, by which the surplus water which now flows annually into the ocean might be turned to account; and the first great effort which is made in this direction has an outcry raised against it. England owes much of its greatness to canals, and these have been formed by turning off the surplus water of the rivers. By canals the splendid system of inland navigation which distinguishes the Northern States of America has been effected. It appears to us that those who are carrying water into the Willandra are doing for that district what the Edward, the Wakool, and the other ana branches of the Murray, have done for this district. The squattages on the Murray are not injured, but immensely served by this diversion of the water, by which the country between the Murray and the Billabong is irrigated. This district would be almost a desert but for these natural canals. We can see that if the Willandra were entirely empty, the floods would reach the lower part of the Lachlan some days later; but when once the creek is full, supposing that they are average seasons as regards floods, it can afterwards but little interfere with the lower runs. We are told that the water drawn from the Lachlan does not return to it. If it does not, our correspondents ought to tell where it does go to. If the water is not carried into the Darling, but is stopped at one end, it seems to us that the complaint is groundless, because, when once the creek is full, it will only require a trifling annual addition from the Lachlan to maintain it. We cannot see on what principle of hydraulics a cutting direct from a river is less injurious than one from a lagoon filled from the river. It takes off the river water all the same. Again, we are told that this cutting is to fill a deep hole lower than the bed of the river. If so, it appears to us that the evil complained of will end with the first flood, because, after all is filled, the whole of the water will then flow down the main stream for the rest of the year. We think it will be found on inquiry that there is a mistake in the statement that this cutting is on a level with the bed of the Lachlan. In the account of it published by us some months ago, and which we believe to be correct, it was stated that the river would only flow into the cutting when the flood had risen six feet.—*Deniliquin Chronicle*, June 17.

STAG-HUNT IN VICTORIA.—On Saturday afternoon the 17th instant, it might have been expected that we should have realised in Victoria the far-famed Epping hunt of the old country on Easter Monday. It had been announced that a fine deer would be uncarted on Campbellfield racecourse at one o'clock, and scarcely fewer than five hundred horsemen, with as many more persons in carriages and vehicles of almost every description, were present near the Wheatsheaf Inn, on the Sydney Road, to see the throw-off. Mr. G. Watson, the master of the hunt, probably considering the close proximity of so many well mounted and ill-mounted bipeds, dangerous alike for the hounds and the sport, managed, however, to start the game about half-a-mile from the general rendezvous out of sight of the body of the expectant sight-seers; and, moreover, a stiff stone wall interposed as the first impediment to those who had come out intending to "follow the hounds." This proved a fearful stumbling block to the majority of the bad and middling sorts of the mounted men, and scarcely more than a score of the best were seen near the immediate track of the deer, which, after giving a good run of about seven or eight miles, was captured unhurt near the new reservoir at Preston. The large attendance at the gathering-place shows the increased interest felt by the public in field sports; but some regret may be expressed that it was thought necessary to disappoint the reasonable expectations of those who went to see the throw off, and were disappointed. A correspondent gives the following account of the meet:—"The stag hunt of Saturday affords one of the best treats offered lately to the cockneys of Melbourne, as well as the most veteran sportsman. Not only did the metropolitans turn out in great numbers, but the suburbs and the vicinity of the meeting added their quota to the assemblage, which at starting was variously estimated at 500 mounts of every grade, besides a large number of carriages, buggies, and other vehicles, which of course did not leave the road. The stag was uncarted in Mr. Keady's paddock, about seven miles from town, and, with the assistance of the master, was escorted across the Merri Creek on to the plain known as 'Hooper's Run.' This being done, a messenger returned to announce 'ready,' and forthwith the cavalcade trotted down to the scene, but, unfortunately for many, a 'rasper' in the shape of a stone wall caused the majority to hesitate, and seek a more circuitous route. This threw many completely out of the chase, although from the elevated ground they had a good view of horsemen and hounds streaming along the plains at a merry pace until lost in the distance. The stag confined his attention to the plains referred to, situated between the Merri Creek and the Epping road, subdivided into farms and paddocks, presenting every variety of leap, ditches, wire and rail fencing, stone walls, and brush or scrub, giving ample opportunity to all who wished to try their nerve and their animals' ability. The course, although somewhat zigzag, was due north, and terminated within one mile of Epping, some eighteen miles from town, where his lordship, leaping a stone wall, alighted into a waterhole, where he remained stuck in the mud, quietly awaiting whatever fate his pursuers might have in store for him, which was not such as their previous conduct had led him to anticipate, for, being taken out by several leading members of the hunt, he was quietly blindfolded, his legs tied, and, with the assistance of a dray, carted to a neighbouring homestead to recover himself, and afford another day's 'glorious' sport. The field had dwindled down to about one hundred, who came up shortly after the take, just to say they had seen the finish. A number of ladies were present, and rode with a daring and courage that would have done credit to a red coat, some half-dozen being in at the take. Of course the usual amount of spills incidental to hunting took place, but no accident of a serious nature befel. The journey home was accomplished in two or three hours, the jaded nags and riders having apparently done quite sufficient for one day."—*Argus.*

REMOVING SNAGS IN THE MURRAY.—On Saturday, the 10th instant, at noon, the Melbourne snagging steamboat left Echuca on her first trip. Among others on board were Mr. Burney, marine architect, and Mr. Wilson, inspector of marine engines. A large concourse of spectators assembled to witness the start, which was successfully accomplished, the heavy little craft steaming against the stream at the rate of six miles an hour. The Melbourne goes to Tocumwall with stores for the various snagging parties, and possibly the Government officers now on board will be able to form an idea of her usefulness in removing snags. The steamer Endeavour, recently at Echuca with a cargo of bran from Wahgunyah, was snagged at Lake Moira, on her return passage. As evidencing the difficulty of removing timber from the river, it may be stated that recently a snag was taken out of Cogill's Bend twenty-five feet in circumstance, and that the proceeding took twenty-one days.—*From the Echuca correspondent of the Argus.*

FREEMASONS' HALL AT ORANGE.—This building will be duly opened with Masonic honours on Saturday next, 24th of June. The ceremony is confined, of course, to Freemasons only. It is contemplated opening it to the public with a ball, in about a fortnight or three weeks.—*Western Examiner.*

ENGLISH PHEASANTS.—On Saturday, the 17th instant, we saw (says the *Braidwood Dispatch*) some fine English pheasants, which had been purchased in Sydney by Rowland Hassall, Esq., J.P., of Durham Hall, and which were brought up by the *Clyde* coach on that day. We believe that Mr. Hassall has purchased them with a view of crossing them with the common fowl, in order to breed some really game ones.

PUBLIC AMUSEMENTS.

THE OPERA.—The *furore* just now going on over the opera of "Oberon" is something remarkable, as the people of Sydney are not of that intensely excitable nature which is one of the leading features of the residents in Melbourne. In the latter city, the almost insatiate greed for novelty is never appeased, and each "new thing" in fires or funerals, murder or music, is made the most of for the time being. In Sydney it is somewhat different; the public mind is decidedly apathetic, but not insensible. When it "goes in" for anything extraordinary in the musical line, there is no evanescence about the matter. Throughout the past week the theatre has been crowded to excess, and we do not believe that these continuous large audiences are due solely to the fact that "Oberon" has never before been produced here, and therefore people rush to see it simply because it is the *mode* to do so. As far as observation will enable us to form an opinion, the music of Weber is growing on the people, and they now nightly visit the Opera House from a genuine admiration of the work as a musical composition. On the first night of performance there were two calls before the curtain—which is not always an indication that the music is appreciated; on the second night there was a single *encore* (the "Mermaid's Song") and a pretty general applause, after particular passages, which may be taken as evidence direct that the applauded passages were understood. On Thursday night, although two of the principal singers were suffering from cold, and in consequence the *scena* of Reiza, "Ocean, thou mighty monster," was omitted, there were three *encores*, the most noticeable being the trio between Mr. Squires, Mr. F. Lyster, and Miss Hodson—"Must I then dissemble," in which there is neither dramatic action nor florid passages to excite the listener; but as a piece of unadulterated harmony it appeals quietly to his taste and judgment,—and it was certainly gratifying to see that, being well sung, the appeal was not in vain. The chorus really deserve praise for their admirable singing. More depends on them in "Oberon" than in many other operas,—and the concerted portions throughout are managed with such skilful and effective delivery, particularly at the conclusion of the second act, as to reflect credit on the singers and their conductors, one of whom is Mr. F. Lyster. Mdlle. Durand is the popular favourite as Puck; from her vivacity of performance. The *scena* by Madame Escott was splendidly given on Tuesday and Wednesday, and received its meed of applause; and Mr. Squires has improved in the fine solo, "Even love to fame must yield." Mr. Beaumont has been quite as successful through the week as on the first night, and confirms the opinion that "Oberon" is the best of his *repertoire* so far. The scenic arrangements have been of the best; and after Monday night there was very little delay between the acts, although there is much work to be done while the curtain is down. The vision of Sir Huon in the first act,—when Reiza appears—is remarkably well done; and the closing scene,—the palace of Charlemagne,—with its terraces, stairs, and brilliant candelabra, is fine in the extreme. There is little doubt that "Oberon" would run for some time, but as the season terminates next week there will be but few more representations. His Excellency the Governor and Lady Young are expected to patronise the opera this evening.

THE WIZARD JACOBS.—Mr. Jacobs continues to amuse and delight large audiences at the Victoria Theatre. During the past week this clever conjuror, improvisatore, ventriloquist, &c., has introduced several new tricks, and among other things has thoroughly exposed the great rope-tieing trick, about which half London went mad a few months since, when the credulity of the people enabled the Davenport Brothers to "spiritualise" to some purpose. Mr. Jacobs' entertainment is undoubtedly the most complete of the kind that has ever been placed before a Sydney audience, and the "Wizard" has no cause for complaint on the score of patronage by the public. A morning performance, for the special convenience and amusement of juveniles, is announced for to-day. Mr. Jacobs will take a benefit on Monday next. On Wednesday evening the performance will be for the benefit of St. Vincent's hospital, and on Friday (the last night of the Wizard's appearance) the entertainment will be under the patronage of His Excellency and Lady Young.

ASSASSINATION OF PRESIDENT LINCOLN,
AND
ATTEMPTED ASSASSINATION OF MR. SEWARD.

On April 15th, at 9.30 p.m., President Lincoln, while sitting in a private box at Ford's Theatre, Washington, with Mrs. Lincoln, Mrs. Harris, and Major Rathburn, was shot by an assassin, who suddenly entered the box and approached from behind the President. The assassin then leaped upon the stage brandishing a large knife, exclaiming, "Sic semper tyrannus," and escaped at the rear of the theatre. The ball entered the back of the President's head, and penetrated nearly through. About the same hour an assassin entered Mr. Seward's apartments, under pretence of pressing business, and was shown into Seward's sick room, when the assassin immediately rushed to the bed and inflicted three stabs in Mr. Seward's throat, and two on the face; the nurse alarmed Frederick Seward, who was in the adjoining room; he hastened to his father's chamber and met the assassin, who inflicted upon him a dangerous wound, which is likely to prove fatal. General Grant and wife were advertised to be at the theatre the same evening, but fortunately started for Burlington.

AMERICA.

The belief gains ground of a war between France and America respecting Mexico. France has proposed a joint action to the English Government in case of any movement in Canada or Mexico.

Richmond surrendered on the 3rd April. President Davis was at church in Richmond when Lee's telegram announcing the defeat of his army was received; he immediately started for Danville, with several members of the Government, and the archives of the city. Mrs. Lee, being ill, remainded, but received all respect and kindness from the invading army. Lee conducted the retreat with consummate ability. A pursuit was barred out from different points by Sherman and Meade. Pursuers pressed so closely on Confederates that Lee had to make a stand at Burkesville, on Danville Road, hoping to collect his forces here. A severe engagement occurred, ending in the total discomfiture of the Confederates with great loss and several thousand prisoners, six general officers. Fourteen pieces artillery and a large quantity of military stores have been captured from Burkesville. Lee continued his flight, but was overtaken near the Painsville Road, and lost more prisoners. He again retreated to Farmsville, occupying a position of great strength on the Appomattax. At this point General Grant came upon the Confederates, and threatened by the other divisions of his army, seeing the condition of affairs, to prevent bloodshed, Grant offered honourable terms for capitulation, and during the 7th, 8th, and 9th of April correspondence ensued between Grant and Lee honourable to both sides, ending by the Confederates being liberated on parole. Officers allowed side arms and personal effects. Other Confederate armies are still in the field, but scattered and powerless in presence of the troops which the Federals can bring against them. Whatever isolated struggle may take place, it is considered the war is virtually at an end.

The difficulty of reconstructing the Union now stands out prominently—slavery stops the way, if either North or South resolve to maintain their vows and declarations on that subject, there can be no compromise, and the re-establishment of the old Republic becomes an impossibility.

Grant has removed his head quarters to Washington. Lee arrived at Richmond. Confederates report Lee's surrender was compelled by the wholesale desertion of his troops, the Virginians refusing to leave the State.

The Bushranger Dunn.—The Weddin correspondent of the *Yass Courier*, in a communication dated the 13th of June, says:—"A friend just arrived from Cowra informs me that the principal topic discussed in that town last week was the re-appearance of Mr. Bushranger Dunn, with a mate, in that neighbourhood. It appears that last Thursday, Dunn and another rode hastily up to a settler's house between Cowra and Canowindra, and demanded a few articles that were left there some time previous by himself, Gilbert, and Hall. Upon receiving the same, he and his mate immediately galloped off towards the river. People are beginning to wonder if this young ruffian will be permitted to organise another gang of highwaymen ere he is shot down."

It is intended shortly to commence the erection of the necessary appliances for making the oil.

LAW.

SUPREME COURT.—Friday.

Sittings in Banco.

Before their Honors the Chief Justice and Mr. Justice Wise.

The New Judges.

The Chief Justice stated that he had seen the two gentlemen who had been appointed Judges of that Court, but their commissions had not yet, they informed him, been made out; and until this had been done they could not be sworn in.

Criminal Cases.

THE QUEEN V. DOUGLASS.

The argument in this case was postponed until Monday, with an understanding that if the Court should not take common law business on that day it should stand over until the following Friday.

THE QUEEN V. SAUNDERS.

This was a special case from the Goulburn Circuit Court. Mr. Windeyer, instructed by the Crown Solicitor, appeared for the Crown. The prisoner was undefended.

The prisoner, George Saunders, had been tried at the last sittings in Goulburn, before his Honor the Chief Justice. The indictment contained two counts: one for robbing the Cooma mail of certain bank notes, the other for feloniously receiving these notes knowing them to have been stolen. The prisoner had been already tried for the robbery at the Braidwood Quarter Sessions, and acquitted. There was no plea of such previous trial and acquittal, but the fact was undisputed. The Crown Prosecutor, therefore, entered a *nolle prosequi* as to the first count of the indictment, and proceeded only upon the second. The robbery was on the 5th of November, and some of the stolen notes were shown to have been in prisoner's possession on the 21st of December. He had told the jury that, looking at the nature of the property—Bank notes—and at the circulation of the neighbourhood—the ordinary presumption from "recent possession" that the possessor was the thief, did not apply. Nevertheless that it would be open to the jury to find the prisoner guilty of feloniously receiving these notes if they thought, looking at all the facts, that he knew them to have been stolen. The question was whether this direction, and the conviction which followed it, were sustainable.

Their Honors, after having heard Mr. Windeyer, decided this question in the affirmative.

Rule Nisi.

IN RE ARBITRATION OF HICKEY.

This was an application, on rule nisi, to set aside an award.

Sir William Manning, Q.C., and Mr. Milford, instructed by Messrs. Billyard and Curtis, appeared in support of the application, and Mr. Martin, Q.C., and Mr. Darley, instructed by Messrs. Johnson and Johnson, in support of the award.

A preliminary objection was taken to any further proceeding on this rule upon the ground that the submission to arbitration had not been made a Rule of Court. The case arose out of a dispute between Mr. Edwin Augustus Hickey and the Queensland Sheep Investment Company (Limited). The agreement between these parties contained a clause that in the event of any dispute arising it should be referred to arbitration. That agreement has been made a Rule of Court. But no arbitrators were then named. They were not, in fact, appointed for a considerable time afterwards. The appointment of the arbitrators—which, it was contended, was the actual submission, had been made a Rule of Court. To show that the Court would not, under such circumstances, have jurisdiction to entertain such an application as the present, reliance was chiefly placed upon *ex parte* Glayshire, 34, L. J. N. S. Exch., p. 41. On the other side, it was contended that the fact of the agreement—which provided for the appointment of arbitrators—having been made a Rule of Court, was sufficient to give their Honors jurisdiction in reference to the award of such arbitrators. The respondents having themselves made the agreement a Rule of Court, were estopped from raising any question of jurisdiction upon the ground of their not having taken the same step in reference to the appointment of arbitrators. Upon examining the rule as drawn up, it was found that the agreement was therein styled a "submission," and the affidavit in support of the then application so styled it; but the nature of the agreement itself was at the same time set out, and it was clear that there was then no actual appointment of arbitrators—only an agreement to refer.

Their Honors were clearly of opinion, on the authority of *ex parte* Glayshire, that they had no jurisdiction. The rule must therefore be discharged, but under the circumstances without costs.

Sir William Manning applied before this judgment was recorded, to have the submission made a Rule of Court *nunc pro tunc*.

Their Honors allowed this motion to be renewed upon notice on Monday. In the meantime the judgment—discharging the rule nisi—to be stayed.

Demurrer.

THE ATTORNEY-GENERAL V. JOSEPHSON.

This case standing next on the list, a doubt was started at the Bar as to whether it could be gone on with, inasmuch as it was understood that there was neither an Attorney-General nor a Solicitor-General in office; and that if an Attorney-General had, in fact, been appointed, it was probably Mr. Josephson himself, who could not be, at the same time, both plaintiff and defendant. The latter was a mere remark, but the point as to there being no Crown law officer of whose existence the Court could take judicial cognisance, was raised by Mr. Isaacs, for defendant, in the form of a preliminary objection.

The Court, without entering further into the question, directed the case to stand over.

Business of the Court.—The Court will sit at 11 a.m. on Monday, to dispose of such common law business as is ordinarily taken on Tuesdays and Fridays in term. The two new Judges will probably be sworn in directly after the opening of the Court, and before any other business is entered upon.

CENTRAL POLICE COURT.

Friday.

Before their Worships the Police Magistrate, Messrs. Cohen, Dangar, Jolly, and Murphy.

Of thirteen prisoners brought before the Court, three were discharged.

James Prior was summarily convicted of having stolen a bag, of the value of 5s., the property of Mary A. Bayliss, and was sentenced to be imprisoned three months.

Henry Webster was committed to take his trial for having stolen one dozen pairs of boots, of the value of £3 12s., the property of William Warner, of Parramatta-street, boot warehouseman. Prosecutor deposed that between 5 and 6 o'clock yesterday, in consequence of information, he left his shop, and looking along the street saw prisoner carrying a bundle of boots; he followed, overtook, and gave him into custody, for having stolen the boots; he had three bundles, each containing twelve pairs, and the whole tied together; one of the three bundles (produced) the prisoner was carrying, in order to detach which from the two others he must have cut the cord which bound the three together.

George Finigan, charged with having stolen a loaf of bread, of the value of 5½d., the property of Charles Hardie, pleaded guilty, and was sentenced to pay a penalty of 10s., or to be imprisoned seven days.

James Lappin, alias Punch, a cabman, was committed to take his trial, for having stolen a cheque for £5, the property of James Doyle. Prosecutor deposed that, on the night of the 17th, he engaged the prisoner's cab, and paid him his fare, but at the expiration of the agreement he found that he had not sufficient for the night's expenses, and gave prisoner a cheque for £5, directing him where he would get cash for it, and return with it at once; he did not return, and this prosecution was instituted. Prisoner said that prosecutor owed him £2 for cab hire from 8 p.m. until 3 a.m. and that he was to return him £3 of the proceeds of the cheque; that he sent his wife with the cheque, and she was told to call again. The cheque was taken to the bank by a female, not identified, who was told to call again, it being drawn upon a branch establishment; on its return it was marked "N. S. F." (not sufficient funds). It was given in evidence that the cheque was not taken to the person who, prosecutor said, would cash it; but that person said that if it had been brought to him he would not have given money for it.

James Kelly was convicted of having stolen a saw and an axe, the property of John Ceane, and was sentenced to be imprisoned one month.

Rebecca Stephenson, 16, charged with having stolen three dresses and one shawl, valued at 10s., the property of a Mrs. Adlam, pleaded guilty as to the dresses, but denied the charge so far as concerned the shawl (which has not been found), and was sentenced to pay a penalty of 20s., or to be imprisoned seven days.

William Menzice was fined 20s. for having assaulted constable Dowan, and Henry Tippett was fined a similar sum for having obstructed the same officer in the execution of his duty.

Margaret Mitchell, an idle and disorderly person, was sent to Darlinghurst for three months.

William Menzice was fined 20s. for having used indecent language, and James Russell was fined 10s. for riotous conduct in a public place.

On the summons paper were fifteen cases, of which one was dismissed, another was postponed, and two were not prosecuted. John Daley, of Newtown, was prosecuted by Mr. Cory, on behalf of the inspector of weights and measures, for having in his possession, in a cart used as a stall at the Haymarket on Saturday night, a false and fraudulent weighing machine, which was four ounces against the customer; and on a second information, for having obstructed Mr. Mitchelson in the execution of his duty, by attempting to recover the machine after it had been lawfully seized. Defendant was sentenced to pay a penalty of 40s. for each offence, and, in addition to ordinary costs, 10s 6d. professional costs, or to be imprisoned twenty-eight days. Six persons were fined in sums varying from 1s. to 5s. for violations of the Redfern municipality by-laws. Mary Mung was fined 20s. for having made use of words of a nature calculated to provoke a breach of the peace. In Holmes v. Turbitt, for the support of an illegitimate child, an order for 6s. a week was made by consent; and in Dee v. Moore, a proceeding under the Apprentice Act, the indentures were cancelled by mutual consent.

The Roster.—Mr. Eagar and Major Wingate have been summoned for Bench duty on Saturday.

WATER POLICE COURT.

Friday.

Before the Water Police Magistrate, with Mr. M. Metcalfe and Mr. G. Thorne.

James Wallace, apprehended for drunkenness, in Crown-street, was reprimanded and discharged.

On the summons list there were twelve cases. William Jewell, master of the ship Leonidas, was fined 10s., with costs, for neglecting within twenty-four hours after the arrival of that vessel to deliver to the shipping-master, in writing, a true list of the names of the crew and passengers. Thomas Russell Duigan was charged with refusing to pay the legal fare of 24s. to Charles Kelly for hire of drays, and was ordered to pay the amount, with costs of Court.

William Watson, cabman, for standing and plying for hire at a place not being an appointed stand, was fined 10s., with costs of Court. Patrick Hanran, landlord of the Nelson Hotel, William-street, was fined 10s., with costs, for keeping his licensed house open for the sale of liquor at ten minutes after 2 o'clock in the morning of the 14th instant. The case Reilly v. Patten (assault) was dismissed; Oram v. Hughes (refusing to pay for hire of licensed dray) withdrawn on payment of costs; Oram v. Smith (refusing to pay cab fare) also withdrawn on payment of costs; Blott v. Williams (assault) dismissed; M'Mahon v. Hawley, adjourned till Tuesday. Elliott v. Morrissey (illegal detention of property), no appearance.

THE GREAT SOUTHERN RAILWAY.

A deputation, consisting of Mr. Roberts, M.L.A., Mr. Parkes, M.L.A., Mr. Augustus Morris, Mr. J. N. Oxley, and Mr. H. M. Oxley, waited on the Minister for Works on Thursday afternoon, for the purpose of presenting a memorial from upwards of three hundred landholders and residents in the neighbourhood of Kangaloon and Yarrawa, requesting that a station for goods and passengers might be placed at Bowrel on the extension of the Great Southern Railway. It was stated that Bowrel was a small village, about four miles beyond the Fitzroy iron mines, and that it was absolutely necessary that a road should be formed from Kangaloon to Bowrel, in order to afford an outlet for the free selectors and other residents in that district, who would otherwise be shut out from access to the railway by the Mittagong Range on the one side, and the Wingecarribbee River and Swamp on the other. The petition presented by the deputation was as follows:—

To the Hon. the Minister for Works.

Sir,—We, the undersigned holders of land in fee and on lease at Berrima, Yarrawa, Kangaloon, Wingecarribbee, and Upper Mittagong, most respectfully beg to point to you that, on the completion of the railway towards Goulburn, we will be greatly inconvenienced should there not be a station at the village of Bowrel.

We, therefore, desire to be permitted to draw your attention to the advisability of forming the road leading from Yarrawa and Joe Wild's meadows past Shipley's, joining the road from Kangaloon and Dapto at or near Mr. R. Roberts', and passing by Lasby's to the village of Bowrel (as surveyed, and indicated by the annexed chart), and of establishing a station for goods and passengers at that place, which is situated at a point on the railway nearer and more accessible to us than any other on the whole line, thus at once accommodating the whole of the southern side of the Mittagong Range, and the upper portion of the valley of the Wingecaribbee.

We may also be permitted to point out the fact that a station so placed, viz., Bowrel, would be within four and a half miles of the town of Berrima, whereas the site of the proposed station at the Fitzroy Mines is not less than nine miles, and that at Moss Vale not less than seven miles, from that town, and would, therefore, be a great convenience to all those looking at Berrima as their commercial centre.

We have the honour to be, Sir, your most obedient servants.

[Here follow 337 signatures.

Mr. Arnold informed the deputation that it was his intention to visit the neighbourhood in the course of a few days, and that in the meantime he declined to give a decided answer to the application.

STREET NUISANCES.

To the Editor of the Herald.

Sir,—First on the list of street nuisances, in this city, are the innumerable dogs which infest all parts alike. They crowd in every lane and alley, and are ever in our way, in the most thronged thoroughfares, proving stumbling-blocks to the unwary, and resenting with savage jaws any attempt to interfere with them. To those who, like myself, are constantly in the saddle, they are particularly dangerous, and not a single day passes but my limbs and life are jeopardised by some of the great skulking, wolfish brutes attacking my horse, or by a troop of yelling curs following at his heels. Accidents are almost daily occurring to those whose business requires them to ride through the city, from this cause.

Not an hour since, in Sussex-street, I was assailed by a hybrid mastiff or bull dog, which sprang upon my horse as I trotted past and seized his fore leg, causing him to rear and almost unseat me. Terriers and curs are bad enough, but surely such powerful and savage brutes as this, and scores more of the same kind, should not be allowed freedom in our streets. I believe there is a Dog Act, but it is allowed to remain a dead letter, to our serious inconvenience. The Municipal Council of Melbourne has abated the nuisance in that metropolis by fining owners of unregistered dogs, and killing all that were unclaimed. Let those who like to have dogs for protection keep them by all means, but let them be obliged to register them, and keep them on the chain. This matter was at one time under the supervision of the police, and periodical battues were instituted for the benefit of vagrant canines. I wish they could be revived and our streets cleared of the dangerous and vexatious nuisance.

Another dangerous nuisance are the iron hoops which are allowed to remain in the roadway so often. Spring guns would be scarcely more objectionable. An unfortunate horse or pedestrian stepping on one of these would run a very considerable risk of a broken leg, or at least would ensure a very severe wound. Persons wilfully leaving them in the road should be adequately punished, and the dust-carts ought most assuredly to carry away all such impediments.

There are several other matters which require notice, but I will not further trespass on your space and time, but trusting that others will suggest suitable means of getting rid of the nuisances I have specially mentioned.

I am, Sir, yours truly,

EQUESTRIAN.

Sydney, June 22.

MAITLAND MARKETS.

Friday, June 23rd.—Business.—Some of the wholesale houses report that business has improved since the return of fine weather; others say that trade is dull, both in the wholesale and retail departments. Considerable anxiety is felt at the non-arrival of the English mail. The markets are quiet, and without any changes worthy of notice.

Teas.—Congous, best brands, £9 to £9 10s per chest; hysonskin, £5 to £7 10s. per chest.

Sugars are reported firm, but no actual change in quotations. Company's No. 1, £48 per ton; crystals, £52 per ton; light Mauritius, £36 to £38 per ton; ration, £35 to £37 per ton.

Oilmen's Stores.—Bottled fruits, 14s to 15s per dozen; pickles, 9s to 9s 6d per dozen; sardines, ¼-lb. tins 8s per dozen, ½-lb. tins 11s 6d per dozen; English jams, 13s 6d to 14s 6d per dozen.

Salt very firm. Liverpool, £5 to £5 10s per ton; fine, £6 per ton; rock salt, scarce, at £7 per ton.

Brandy.—Martell's, 21s 6d to 24s per gallon; pale brandy, 30s to 40s per dozen, best brands 45s to 60s per dozen. Gin, 41s to 44s (key brand) per case. Whisky, 33s to 35s per dozen. West India rum, not so firm, 30 o.p., 15s to 17s per gallon.

English Ale easier. Byass's No. 3, very scarce, at £8 5s per hogshead; Marrian's, £8 to £8 10s per hogshead; bottled ale and porter, 11s 6d to 12s per dozen.

Rice, scarce, £24 to £25 per ton.

Tobacco.—Colonial, manufactured from the pure Virginian leaf, 4s 6d per lb.; colonial, 1s 4d to 1s 6d per lb.; leaf, 6d per lb.; American negrohead, 7s to 8s per lb.; cigars, 120s to 130s per 1000.

Carriage equal to the demand. Quotations, 4s per cwt. per 100 miles.

Wool.—No arrivals worthy of note.

Flour and Wheat.—The market for breadstuffs, contrary to general expectation, is rather firm. It is alleged that stocks at the present time are rather light, notwithstanding the recent arrivals, and that as the demand is good there is as yet nothing to justify a decline in prices. It is to be hoped that supplies from South Australia will soon come forward more freely than they have for some time past; the settlers are said to be mostly engaged in farming operations, hence the delay in bringing their grain to market. The local demand for flour is good. Quotations: Fine flour, 25s; seconds, 23s per 100 lbs., retail. There is not much wheat on hand in this district. It is quoted at 9s to 9s 6d per bushel for imported grain.

Maize.—The maize market is somewhat duller this week, in consequence of the fine weather making it probable that supplies will now be heavier from the outlying districts. Purchases have been made at 2s 5d to 2s 6d per bushel.

Bran and Pollard.—Both these articles are in good demand at £7 per ton wholesale, and 8s per 100 lbs. retail. Stocks are rather bare.

Hay.—Lucerne, £3 10s to £4 10s per ton. Oaten, £4 to £4 10s per ton.

Green Food.—Lucerne, 5s to 6s per cart load.

Poultry.—Wild ducks, plentiful, at 2s 6d to 3s per pair retail; fowls 1s 6d to 1s 9d per pair wholesale, 2s to 2s 6d retail; ducks 2s 6d to 2s 8d per pair wholesale, 3s to 3s 3d. retail; geese 5s to 6s per pair wholesale, 7s to 8s retail; cock turkeys 7s to 8s per pair wholesale, 10s retail; hen turkeys 4s per pair wholesale, 7s retail.

Farm and Dairy Produce.—Butter 1s to 1s 2d per lb. wholesale, 1s 4d to 1s 6d retail; eggs 1s 2d per dozen wholesale, 1s 3d to 1s 6d retail; bacon 5d to 6d per lb. wholesale, 10d retail; lard 6d per lb. wholesale, 8d to 9d retail; cheese 3d to 5d per lb. wholesale, 6d to 8d retail.

Vegetables.—Potatoes 5s per cwt. wholesale, 1d per lb. retail; cabbages 1s 6d to 3s per dozen wholesale, 3d to 6d each; carrots 2s to 3s per dozen bunches wholesale, 4d per bunch retail; onions 20s to 24s per cwt. wholesale, 4d per lb. retail; turnips 3s per dozen bunches wholesale, 4d per bunch retail; pumpkins 2s to 4s per dozen wholesale, 4d to 6d each.

Fruit.—Apples 10s to 13s per case wholesale, 1½d to 2d each; bananas 1s 2d per dozen wholesale, 1½d to 2d each; oranges, 2d to 6d per dozen wholesale, ½d to 1d each.

Butchers' Meat.—Beef 9s to 10s per cwt. wholesale, 2d per lb. retail; mutton 3d to 3½d per lb. wholesale, 4d per lb. retail; pork 6d per lb. retail; veal 6d per lb.; lamb 4s 6d to 5s 6d per quarter.

Leather Market.—Maitland sole leather, 10d to 1s per lb.; Sydney sole leather, 1s to 1s 2d per lb.; Maitland and Sydney kip, 1s 9d to 2s per lb.; calfskins, 3s to 5s per lb.; French and English ditto, 5s to 6s per lb.; harness leather, 1s to 1s 3d per lb.; basils, 10s to 18s per dozen.

Tallow, £27 to £28 per ton, boiling £28 to £30; soap 9s per cwt.; candles 5½d per lb.

Hides, 7s to 12s, according to quality.

STATION AND STOCK REPORT.

[THOMAS CADELL.]

Stations.—I have sold the station "Mogil Mogil," Barwon River, together with 1200 cattle and 9 horses, unmustered, for £1970. There are purchasers for compact station properties, lightly stocked.

Fat Cattle.—Market firm. I have quitted a prime draft, the property of S. B. Dight, Esq., from his Yetman station, as follows:—200 head at £5 per head; 47 head at £4. Purchased for shipment. I have sold other lots of middle to fair quality at market rates. I have two superior drafts en route, viz., Messrs. Wyndham's, and Johnstone's, to arrive latter end of next week. Cattle of best quality will continue to command high prices. Quotations: Good to prime bullocks, £4 5s to £5 per head; mixed lots, £3 5s to £4. Other descriptions at various rates, according to weight and quality.

Fat Sheep.—A prime flock would realise high rates. I have sold 1200 of middle quality at 12s, delivered at Namoi River. I expect a very prime lot from a first-class Liverpool Plains Station, to arrive in about 14 days. Quotations, good to prime 13s to 15s, middle to fair 11s to 12s. Store Cattle: Well bred bullocks can be placed at high rates, and the demand is also brisk for mixed lots. Quotations unaltered. Store Sheep: In fair demand, young ewes and wethers can be sold to advantage, if depasturing in the Northern or Western districts. I anticipate effecting few sales until shearing operations are concluded, as squatters generally decline selling at present. Quotations unaltered. Horses are dull of sale. Wool: Mail news anxiously expected, odd lots only coming to hand. Tallow, Hides, and Skins: Sell at fair rates. Land and Estates: Rich alluvial land is in demand.

The branch steamer Alexandra arrived at Adelaide this afternoon with the English mail per Salsette, and news to the 16th of May. The commercial intelligence is very important. The following is the substance of our telegrams:—The English funds on the 26th of April were 1½ per cent. higher than the previous month. Consols being quoted at 91½ for money, and 91 to 91¼ for the account. Money is easier; and the Bank of England rate of discount is now reduced to 4 per cent. New South Wales Government debentures appear to be rather firmer. Terminables, due in 1866, are quoted at 99 to 100. For the long dated debentures the price is not given; we cannot therefore say whether there is any improvement in price. Victorian Government debentures, 107 to 108.

WOOL.—Since the March sales the market has been quiet, and purchases limited to those descriptions required for immediate consumption. The next sales commenced on the 15th of May, and the number of bales catalogued is 36,952 bales, but 45,000 bales are expected to arrive in time. According to our latest telegram, dated 16th of May, the wool sales commenced with a fall of 1d per lb. The northern trade has not been equal to expectation, and the home trade is not expected to buy liberally except at reduced prices, the accounts from the Continent being unsatisfactory. The American news has caused a fresh decline of 5 per cent. which would be equal to a little more than 1d per lb.

All the first series of the New Zealand Government 8 per cent. debentures have been taken above the minimum rate.

The London Chartered Bank of India, Australia, and China, has declared a dividend at the rate of 10 per cent. per annum.

Some very large failures have occurred during the month. Among them we find the names of Messrs. Kelson, Tritton, and Co., East India merchants, liabilities £900,000; Charles Joyce and Co., general merchants, liabilities £1,100,000; Bremner and Son, shipowners, liabilities £48,917; J. and G. Cogan, Glasgow manufacturers, liabilities £100,000; Buchanan, Hamilton, and Co., East India trade, liabilities £75,000; David Leopold, of Leeds, liabilities £850,000; and the Portsmouth and Southampton Banking Company has also suspended payment, but the liabilities are not stated.

An offer of 11s. 3d. in the pound has been accepted by the creditors of Messrs. Attwood, Spooner, and Co.

The exports from the United Kingdom to the Australian colonies shew a considerable increase on the previous month, the exports to Sydney being £447,133; to Victoria, £441,677. To Adelaide there is an increase of £119,613, and to New Zealand an increase of £21,431; but to Queensland there is a decrease of £25,983.

PRODUCE MARKETS.—In oils there has been a large business. Linseed has advanced in price, and olive is in demand. Australian is lower, and quoted at 37s. 6d.; Southern double compass £44 10s., sperm £88 to £89.

HIDES.—A large business is reported in Australian hides at a decline of one-eighth of a penny per lb.

LEATHER.—Most of the Australian offered was disposed of at full prices.

TALLOW. — Business has improved, and rates have advanced 6d. to 1s. per cwt. PYC, old, 41s. to 41s. 3d. Best Australian, 40s. to 40s. 9d.

SPIRITS.—Rum is in demand, and advanced 1d per gallon. Brandy and geneva are nominal, at former rates. Good ports and sherries are in request, and command high prices. The same remark also applies to light wines.

COFFEE is dull, and prices of English rule lower. Foreign, small sales, at £91 to £94 per ton.

SUGARS are without any alteration, and importers are not forcing sales. Stocks, 30,000 tons more than last year.

COFFEE is firmer, and native and Plantation have advanced 1s.

RICE.—A good business is reported as having been done for export, and prices rule 3d. to 6d. higher.

The amount of gold coin issued by the Sydney Branch of the Royal Mint during the week ended (to-day) June 23rd has been 28,000 sovereigns.

The quantity of gold dust imported into the same establishment during the week for the purpose of coinage has been 14,452 ounces.

The Southern and Northern Escorts arrived during the week, and delivered at the Sydney Branch of the Royal Mint the following quantities of gold dust:—From Goulburn, 121 oz. 15 dwts. 18 grs.; Burrangong, 603 oz. 11 dwts. 6 grs.; Adelong, 318 oz. 15 dwts. 6 grs.; Tumut, 187 oz. 17 dwts. 6 grs.; Tumbarumba, 139 oz. 13 dwts. 18 grs.; Gundagai, 358 oz. 5 dwts. 17 grs.; Braidwood, 3196 oz. 17 dwts.; Nerrigundah, 57 oz. 5 dwts. Northern: From Rocky River, 349 oz. 19 dwts. 6 grs.; Nundle, 498 oz. 13 dwts.; Tamworth, 80 oz. 17 dwts.; Bendemeer, 251 oz. 11 dwts. Total, 6165 oz. 1 dwt. 4 grs.

There has been a moderate amount of business transacted in the share market this week. Bank shares are in favour, and have an upward tendency. Bank of New South Wales shares are firmer, and have improved 5s. to 8s. per share. Commercial Bank shares are inquired for, and would command higher rates, but there are none offering at present. Australian Joint Stock Bank shares have advanced 5s. per share, and City Bank 2s. 6d. per share. The approaching half-yearly dividends has tended to strengthen prices, and as the market is bare of bank shares generally, prices are likely to rule higher. Australasian Steam Navigation shares are not so firm, and a forced sale was made at a decline of 20s. per share, but there are none now offering under £17 per share. In Pacific, and United Fire and Marine Insurance shares, sales are reported at full rates. The following are the prices at which sales have been made during the week. Bank of New South Wales, £40, £40 5s., and £40 8s. per share; Australian Joint Stock Bank, £14 17s. 6d. and £15 per share; City Bank, £10 12s. 6d. and £10 15s. per share; Australasian Steam Navigation Company, £17 5s. and £16 10s. per share; Pacific Fire and Marine Insurance Company, £5 per share; United Fire and Marine Insurance Company, 30s. per share; Australian Gas-light Company (new shares), £10 10s. per share.

DEBENTURES. — Government Debentures have been dealt in this week to a small amount, terminables at 95 and interest; interminables at 92 and interest. New Zealand Government debentures have changed hands at 100¼ and interest.

The following table will show the closing prices of our securities, as well as the rates at which sales have been made during the week:

In general business we have very little movement to report since the departure of the mail steamer Northam. The flour market continues steady, small parcels of Adelaide, first brands, having been sold at £21 to £21 10s. per ton. In Chilian flour several sales are reported at £19 5s. to £20 per ton. The whole of the cargoes lately arrived have passed into second hands, and this has somewhat strengthened prices, but buyers are still cautious in their operations. To-day, however, we have received from Adelaide, by the Guadalete, 172 tons of flour and 698 quarters of wheat; and by the Otago, 1750 bags of flour and 3204 bags of wheat, and this must prevent any rise in prices. In liquids the only alteration is in brandy which is firm, at 8s. for Martell's. Sugars are held for higher rates, in consequence of telegrams received from Melbourne of later news from Mauritius to the effect that there were no vessels loading for the colonies. Candles are firmer, and holders are asking 9⅞d. per lb. for full weights. In other articles of daily consumption we have no alteration to notice.

Messrs. Irwin and Turner catalogued, to-day, 131 casks of tallow, and sold 71, at the following prices:—Beef, £29 2s. 6d. to £30 2s. 6d.; station, £29 7s. 6d. to £31 2s. 6d. Hides: About 1000 were sold at 4s. to 13s. 9d. each. Calfskins 7d. to 1s. each. Horns 4s. per hundred. Hair 4½d. per lb.

Mr. O. B. Ebsworth sold, to-day, by auction, 33 casks of tallow at 28s. to 31s. per cwt., and 171 hides at 6s. 9d. to 15s. each.

Mr. H. R. Reid reports having sold privately and by auction three lots of hides at 8s. 3d. to 12s. each, and tallow at 28s. 6d to 30s. per cwt.

COMMERCIAL.

PRODUCE, STOCK, AND STATION CIRCULARS.

O. B. EBSWORTH.—Wool: There is really nothing appearing to test this market. The only lots at auction to-day requiring comment were some parcels of northern clips, which realised from 8d to 8½d per lb. All the scoured parcels were withdrawn, as the offers did not come up to the expectations of the holders. Sheepskins about the same, but two superior parcels of washed skins brought 8½d and 8¾d per lb. Tallow: The value of boiling-down beef rules from 30s 9d to 31s; refined, equal to P.Y.C., up to 31s 6d; mutton, 34s to 35s; soap tallow, 28s 6d to 29s 6d. Hides: Last week there were fewer first-class offering than for some time, and as shippers had mostly closed their parcels for the mail, there was not much activity in the market, still little or no decline can be quoted. Light are not so saleable as extra heavy weight, the latter being in great demand for home consumption. Tallow: 2 casks, TS, at 28s 9d; 2 casks, MgF, at 29s 6d; 1 cask, cross, at 30s 10½d; 1 hide, at 28s; 14 casks, new moon, at 31s; 13 casks, TS, at 31s. Hides: MgF, 11 at 6s 9d; TS, 14 at 15s; cross, 21 at 11s; TS, 122 at 10s 9d.—June 22nd.

IRWIN AND TURNER.—Wool: Owing to the indisposition on the part of buyers to operate, and the non-arrival of the mail, we postponed our sale until Thursday next. Tallow: Last week's rates were fully maintained, and taking into consideration the high prices given for cattle, for this and the Melbourne market, boiling establishments will be prevented operating to any great extent, so that prices are not likely to rule lower during the winter. We catalogued 96 casks, and sold 51 at the following prices:—DN, 1 cask at 28s 6d; KC, 2 at 31s 1½d; EC&Co, 5 at 29s 6d; T, 6 at 29s 1½d; B, 7 at 29s 9d; C&H, 1 at 29s 4½d; Cy, 1 at 29s 4½d; M, 1 at 29s 4½d; C, 1 at 29s 6d; A, 1 at 29s 4½d; MC, 2 at 29s 6d; M, 24 at 30s 7½d per cwt. Hides: With the exception of a few lots of good heavy, which were taken for town, there was little competition. We catalogued 1082, and sold about 1022 as follows: 30 at 9s, 49 at 13s 9d, 50 at 9s 6d, 107 at 10s, 191 at 12s 6d, 26 at 4s, 73 at 9s, 40 at 9s 6d, 95 at 8s 9d, 43 at 10s 3d, 65 at 12s 3d, 169 at 12s 6d, 20 at 7s per hide. Horns, at 4s per 100. Shankbones, at £4 per ton. Hair, at 4½d per lb.—June 23rd.

THOMAS DAWSON.—Fat Cattle remain as quoted last week; demand growing daily. I have a draft of White's for next week, for which I expect to obtain full prices. Best bullocks are worth £5 to £5 10s in this market. Buyers of fat stock from the sister colonies, both for overlanding and shipment, are anxious to lay their hands on the best mobs at high rates. Fat Sheep: Market firm, and I have every expectation of an advance taking place as cattle become scarce. Prices range from 12s to 14s, according to quality. Store Sheep and Cattle: The demand for both is brisk, but flock owners do not appear inclined to sell before shearing, and owners of cattle have suddenly raised their prices to such an exalted pitch, that the buyers have left the market. Horses: Good upstanding, strong, hairy-legged colts are in demand, and bring good prices; weeds cannot be given away.—June 23rd.

PITT AND SULLIVAN.—Fat Cattle: This market remains firm at former quotations, with a prospect of an advance in prices. The increased demand for Melbourne must, in the end, do good for us, and enhance the value of cattle here. Our sales have been—154 head of Robinson's, at £4; 132 of Hall's, at £4; 149 of Seivel's, at £4 10s; 130 of Town's, at £4 5s; 25 cows, Seivel's, at £3 12s; 192 of Clark's, at £4 4s; 200 BO bullocks, at £5; 185 of Seivel's, at £4 10s; and 55 of Skewthorp's, at £3—in all 1222 head. Fat Sheep: No activity prevails in this market except for best quality; prime wethers worth 13s; middling dull of sale. We have no sales to report.—June 23rd.

BURT AND CO.—Fat Cattle: Markets rather unsettled, and prices fluctuating this week, caused, we think, by the inferior class of stock coming to hand. Prime cattle are scarce, and worth fully £4 10s to £5. Our disposals at the Victoria Yards this week, have been 200 head of middling cattle, nearly all cows, from £2 10s to £4 10s—average £3 5s; also 800 store sheep, at an average of 7s.

W. G. HENFREY reports the following prices obtained during the week, by him at his auction depot:—Cows, from £4 to £7; calves, 17s to 30s; lambs, 7s 6d to 14s; pigs, 12s 6d to 60s each; fowls, 2s 6d to 3s 3d; ducks, to 3s 6d; turkeys, 10s to 18s per pair; butter, roll, 1s to 1s 6d; butter, keg, 1s 3d to 1s 6d; lard, 5d to 6d per lb.; eggs, 1s 6d to 1s 9d per dozen. At Railway Station: Oaten hay, 5s to 6s 3d; lucerne, 5s 6d to 5s 6d; straw, 3s 6d to 4s 6d per cwt.—June 23rd.—ADV.

F. P. MEARES.—List of prices obtained during the past week, for live stock and produce, at the Railway Auction Produce Depot, George-street South, Sydney:—Milch cows, £3 to £7; calves 9s to 40s, lambs 5s to 14s, pigs 8s to 35s, roasters 2s to 5s; turkeys 7s to 22s, geese 8s to 9s 6d, ducks 4s 6d to 6s, fowls 3s to 4s 3d per pair; butter (roll) 1s to 1s 6d, butter (keg) 11d to 1s 3d per lb.; eggs 11d to 1s 6d per dozen; bacon 5d to 6½d, cheese 5d to 6d, lard 3½d to 4½d per lb.; potatoes 5s to 7s 6d, tallow 24s to 29s per cwt.; hides 6s to 13s each; sheepskins 4½d to 9d; wool (in grease) 5d to 10d per lb.; hay (oaten) 4s to 6s, hay (lucerne) 4s 9d to 5s 3d; straw 3s 6d to 4s 6d per cwt.—June 23rd.—ADV.

HORSE MARKET.

MR. C. MARTYN reports: There is a steady and increasing demand for good stout hackneys and harness horses. During the past week transactions have been more numerous than for some time past, and horses in good condition and thoroughly broken readily found purchasers. Prices are firm at from £1 to £5 for light stock. No superior well-bred hackneys and harness horses are in the market.—June 23rd.

BURT AND CO.—Horses: Markets bare of good stock, demands as usual, mostly for horses possessing good breakage, size, and style. Cart stock dull of sale; no demand beyond occasional changes for town use.

MELBOURNE LIVE STOCK MARKET.

DALMAHOY CAMPBELL AND CO.—Fat Cattle: The supply during the past fortnight was 2322 head, this number being rather under requirements. The prices realised have been very satisfactory, considering the quality of the stock now offering, which, as a whole, is much below the average of the stock sent to market in ordinary seasons. Prime pens bullocks are selling at from £10 to £12 2s 6d; second quality ditto, at from £7 to £8; inferior ditto, from £4 to £6; prime pens cows, from £7 to £8; second quality ditto, from £5 to £6; inferior ditto, from £3 to £4. Fat Sheep: The number passed through the yards amounted to 15,442, about a fair average supply, as several of the lots offered were unfit for the butchers, the actual number of killable sheep was under requirements. Consequently, slightly advanced rates were obtained. We quote prime quality wethers at from 18s to 19s 6d, medium ditto from 16s to 17s, second quality ditto from 14s to 15s, inferior ditto from 11s to 13s. Store Stock: The demand for all classes of stock is much better in the Riverine districts of New South Wales than in Victoria. The principal drawback to business in sheep is that ewes are now lambing and unfit to remove. Good wethers are moderately inquired for, but high prices are not offering, as neither feed nor water are yet plentiful. All lots of good store cattle find ready purchasers at about 5s advance on last year's current rates.—June 19th.

The estate is situate near the Abercrombie, and it would appear that the Government land just outside Mr. Smith's boundaries has been worked as gold claims, and payable gold obtained.—*Bathurst Free Press*, June 21.

THE GEM OF DARLING POINT.

THE ESTATE OF AVOCA, subdivided into 13 BEAUTIFUL BUILDING SITES, varying in extent from about a quarter of an acre to one and a half acre each.
Title unquestionable.
Terms liberal, at sale.

MORT and CO. have been instructed to sell by public auction, at the Rooms, Pitt-street, at 11 o'clock, on WEDNESDAY, 5th July,
THE ESTATE OF AVOCA, DARLING POINT.

*** This splendid property has just been most carefully surveyed and subdivided into building sites, great attention having been had to the topographical features, in order to make each block perfect in itself.

BLOCK No. 1 immediately adjoins Winslow, the property of Edward Wyld, Esq., and has a large frontage to the Darling Point Road. It has an area of about ONE AND A HALF ACRE, and is, beyond doubt, the finest building site on Darling Point.

BLOCK No. 2 adjoins No. 1, and has a frontage of about 150 feet to Darling Point Road, by a similar frontage to the Upper Yarranabee Road.

BLOCKS 3, 4, 7, 8, and 9 have all frontages of from 100 feet to 150 feet to the Upper Yarranabee Road, and vary in extent from about a QUARTER OF AN ACRE to HALF AN ACRE EACH.

BLOCKS 5, 6, 10, and 11 front a reserved road, to which they have from 74 feet to 110 feet each, with an AREA OF UPWARDS OF A QUARTER OF AN ACRE EACH.

BLOCK No. 12 has a frontage of about 280 feet to the Yarranabee Road, and contains nearly THREE QUARTERS OF AN ACRE. Upon it stands AVOCA COTTAGE, a neat stone gothic building, containing 5 rooms, with kitchen attached, built of weatherboards; also, a good cow shed, &c. The cottage is in excellent order and now let to a desirable tenant.

The ESTATE OF AVOCA is bounded on one side by the Darling Point Road, and on the other by the Upper and Lower Yarranabee Roads. It is surrounded by all the most valuable properties in that neighbourhood. Famous as this charming locality is for building sites, which CANNOT PERHAPS BE SURPASSED IN THE WORLD, a single visit to it will carry the conviction that the estate of Avoca is justly termed the GEM OF THE POINT.

With an elevation sufficient to command the most extensive and beautiful views of the harbour and the surrounding country, great care has been taken in subdividing the property, that each block shall form a perfect building site, with sufficient space for the erection of a first-class house and out-offices, &c. The whole of them have extensive frontages to, and are approached by, good roads, and from the nature of the ground but little expense will be entailed in laying it out and planting it.

The public are requested to visit the property prior to the sale, and judge for themselves. No mere description in an advertisement can do justice to the great natural beauties of the sites now offered for public competition; to be fully appreciated they must be seen. It is with that view, therefore, that intending purchasers are earnestly invited to an inspection. The advantages of securing such building positions will then become apparent, and that attraction and competition secured for it which the property really deserves.

Plan on view at the Rooms, Pitt-street, where, also, lithographs of the property may be obtained.

BY ORDER OF THE MORTGAGEE.

THE ALDERLEY HOTEL, GLOUCESTER.

TITLE, Unquestionable.
TERMS at Sale.

MORT and CO. have received instructions to sell by public auction, at the Rooms, Pitt-street, at 11 o'clock, on WEDNESDAY, 28th June,
That well-known hostelry
THE ALDERLEY HOTEL,
Gloucester. It is situate about 30 miles from Raymond Terrace, on the main line of road to New England, Port Macquarie, Manning River, Port Stephens, &c., and within 4 miles of the head of navigation of the Karuah River.

The HOTEL, which has been erected only about four years, is substantially built of brick with stuccoed front, and is 80 FEET IN LENGTH, with wings, and 30 feet in depth, and contains 10 large rooms; also a first-rate six-stall stable, with coach-house attached, shingled, and built on ironbark sleepers.

The land belonging to the hotel comprises an acre of really good garden soil, stumped and free from all old timber, and enclosed with a five-rail fence, and well-watered by the Alderley Creek, which is never-failing.

Attention is directed to this property, which is available either for its present purpose, or from its admirable situation is particularly well adapted for a private residence. It is now occupied by Mr. Hugh Macpherson, who will shew it to any intending purchasers.

SMITHFIELD.

That very valuable Property, comprising 410 ACRES, more or less, and well known as
THE ESTATE OF MRS. CHISHOLM.

Title, unquestionable. For particulars apply to Messrs. NORTON and BARKER, Solicitors, Elizabeth-street.

Terms at sale.

MORT and CO. have been instructed by THE PROPRIETOR to sell by public auction, at the Rooms, Pitt-street, at 11 o'clock, on WEDNESDAY, 5th July,

All that valuable estate, containing 410 ACRES, more or less, situate on PROSPECT CREEK, immediately adjoining SMITHFIELD.

N.B.—The proprietor having determined upon offering this valuable estate as a whole, it is with confidence that Mort and Co. especially direct the attention of the FRUIT GROWER, those employed in CUTTING and DISPOSING of TIMBER, and the CAPITALIST to the sale as affording an excellent opportunity for benefiting themselves.

The TIMBER has been preserved for many years, and consists of
IRONBARK, GUM, BOX, MAHOGANY, and STRINGY BARK,
of quality not to be surpassed, if equalled, in the county of Cumberland; and there is but little doubt that it alone would more than pay the cost of the property.

THE PROXIMITY TO RAILWAY TRANSIT, and therefore the easy access to the Sydney and other markets also demand notice. The property is distant only about
½ A MILE FROM the FAIRFIELD STATION
2 MILES FROM PROSPECT
4 MILES FROM PARRAMATTA, and
6 MILES FROM LIVERPOOL;
and is surrounded by the valuable orchards and farms of Messrs. Kenyon, Whitaker, Holroyd, Smart, Watts, Bossley, and many others.

There is also an AMPLE SUPPLY OF WATER.

THE TAEMAS RUN, on the MURRUMBIDGEE RIVER, together with 1000 (more or less) CATTLE.

Terms, at sale.

MORT and CO. have been instructed by THE MASTER IN EQUITY to sell by public auction, at the Rooms, Pitt-street, at 11 o'clock, on WEDNESDAY, 28th JUNE,

The right, title, and interest of the above-named plaintiff and defendant as co-partners, of and in that well-known run, TAEMAS, situate on the MURRUMBIDGEE RIVER, and bounded on the east by that river, on the west by the eastern boundary line of W. E. Reilly's Narrargalleen Grant, on the south by the northern boundary line of the Cavan Run, and on the north by the MURRUMBIDGEE RIVER.

TAEMAS is situated about 12 miles from Yass on the public road to Tumut and Kiandra, and is well WATERED in the driest seasons, having about FIVE MILES of frontage to the RIVER MURRUMBIDGEE. The run is composed of open box ridges and honeysuckle, with limestone ridges.

With the Taemas Run will be sold
1000 (more or less) HEAD OF CATTLE,
remarkably quiet, and including a great many milch cattle; also,
13 HEAD OF HORSES and 9 WORKING BULLOCKS.

*** Stores, tools, implements, &c., at the option of the purchaser, to be taken at a valuation.

Attention is directed to the sale of this property, as affording an opportunity to secure a really valuable run, with a herd of good cattle. It is noteworthy that but few (if any) cattle have been removed from the run for the last three or four years, and that from the position of the run there is an excellent outlet for FAT CATTLE.

POSITIVE SALE.

Situate on the Fitzroy River, being portions 36, 37, 38, 40, and 44, each containing from 6 to 10 acres.

The soil is excellent for agricultural purposes, and the neighbourhood is being rapidly settled, and from the elevated character of the land now offered for sale must eventually prove very valuable.

LOT 1.—DONALDSON'S LIMESTONE MARBLE QUARRY and 360 ACRES FREEHOLD LAND, situate at CHATHAM, MANNING RIVER.
LOT 2.—DONALDSON'S STEAM SAW MILLS and 104 ACRES OF LAND, situate on SCOTT'S CREEK, MANNING RIVER, about 8 miles from Chatham.

Terms at sale.

MORT and CO. have received instructions to sell by public auction, at the Rooms, Pitt-street, at 11 o'clock on WEDNESDAY, 19th July,
The following very valuable country properties:—
LOT 1.—That well-known property, DONALDSON'S LIMESTONE MARBLE QUARRY, and 360 ACRES FREEHOLD LAND, situate at CHATHAM, MANNING RIVER.

Upon the land have been erected lime-kiln, cottage, two huts, lime shed, and wharf. The cottage is a substantial weather-board building, and contains six rooms plastered, and large verandah. At the rear of the house is a large water tank, and in front a number of orange trees.

The wharf is built of stone, has a deep water frontage, and about 90 acres of the land have been fenced in and subdivided into three paddocks and garden, of which 60 acres are cleared.

The MARBLE QUARRY has a face 20 feet deep, is of superior quality, can be cut into large blocks, and is capable of taking a very fine polish. The quarry is about three-quarters of a mile from the wharf, with a good cart road.

*** It is worthy of note that upwards of THREE THOUSAND POUNDS have been expended on improvements.

The LIMESTONE in itself might, with ordinary care and attention, be made the means of realising a fortune to its owner, and without doubt the valuable adjunct of the MARBLE would add considerably to the profits of an investment.

LOT 2.—DONALDSON'S STEAM SAW MILLS, situate at Scott's Creek, Manning River, about eight miles from CHATHAM, and comprises 104 acres of land, with very extensive deep water frontage.

The saw-mill and steam engine are in thorough repair. The engine is of twelve-horse power, with two boilers. Upon the land are six huts, with about two miles of fencing. Twenty acres of the land have been cleared, and are under cultivation.

*** This valuable property is now under lease for a term of five years, from 1st December, 1864, at an annual rent of £135.

The STEAM SAW MILLS are now yielding a clear and certain income, in addition to which, as the land is cleared it becomes ready for cultivation.

*** Full particulars of these properties may be obtained at the Rooms.
